

## For Creatives

Master video post production workflows and creative media asset management. With Evolphin Zoom, access your videos and graphics without leaving Adobe CC or other editing applications.

Automate the ingest of content from any device.

Find, organize, and keep track of all your video and media assets in one single place.

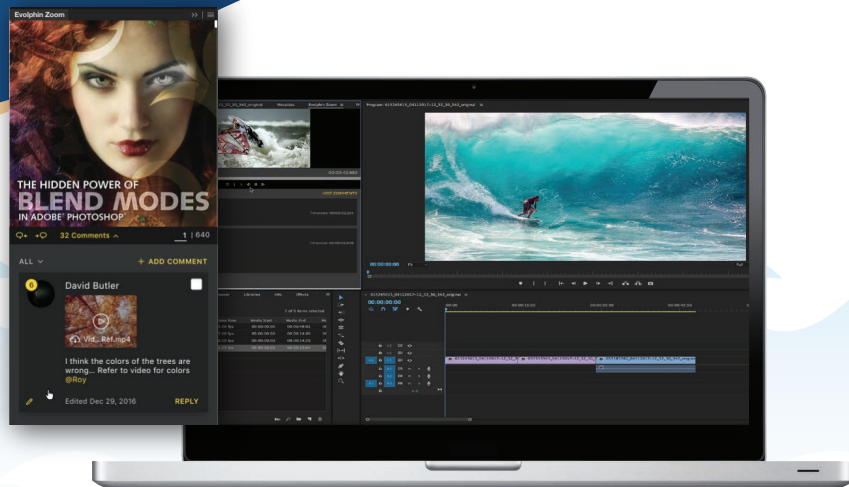

Mouse over media to see previews.

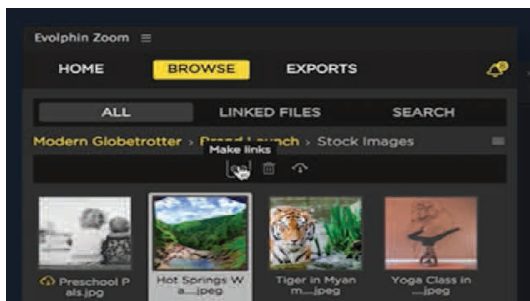

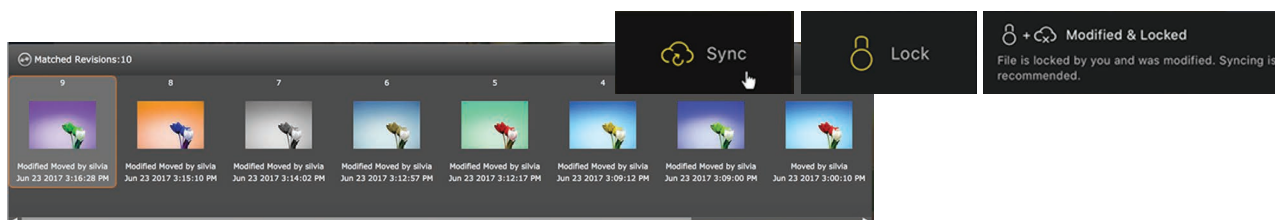

## Collaborate on video editing and media management from within your creative applications.

Take control of your video workflows with VideoFX.

Create, find, edit, and share videos, update proxies, and get real-time feedback without leaving your favorite applications:

Zoom's intelligent version control retains all previous versions of your files for easy retrieval. Lock and sync files to control user permissions and edits.

No more missing linked files. Renamed or moved linked files remain intact. Learn more at <http://bit.ly/2jqD13Y>

Files stored outside of Zoom can still be managed by the Zoom Asset Browser. Use Zoom to manage your files stored on Social Media, CMS or a CDN. Learn more at <http://bit.ly/2wzuamw>
